Dear interested party,

Hi there! I understand that you are in need of a web developer, or some sort of dependable thinking man that knows how to be a great team player. Either way I've got you covered.

I'm a motivated web developer, writer, and artist that is about to wax lyrical on how wonderful he is. Please don't mind the braggadocio (that's what resume's are for!), I'm much more humble in human form.

You want a great communicator with an eye for detail. I have been successfully communicating since the age of two, and my perfectionist nature will serve you well.

My career change has landed me at your door after a five year stint in the Paramedic seat. When I decided that I'd had enough of the Paramedic life, I jumped headlong into the tech field full time. I have been a natural with learning new technological skills ever since I was old enough to use a mouse, and I haven't looked back since taking the leap.

My love for constant learning and the satisfaction of nailing that difficult problem is my gift to you. My existing knowledge base, tenacity, and eagerness to learn more are my tools. Let me build awesome stuff for you!

I have been working full time in the tech industry for two years now, but that's not the best thing about me! I'm adaptable, affable, dependable, and a genuine people person.

I'd love the chance to interview with you and become an asset to you.

Thanks for reading!

Pertinent Career Summary:

Technical Manager: 2013 - Present-

At Clamor I manage the development of large web products by making sure our developers are all on the same page. This consists of integrating code bases, and implementing solutions written by various team members. We use github for our versioning and always maintain an orderly development process. See our work at: <http://www.clamor.la>
Contact: Kevin Rigger: (661) 600 6830

Tech Support: 2013 - Present-

At Paddle8 I maintain the wifi networks and software updates at their live benefit auctions. This involves traditional IT work, such as setting up networks, troubleshooting, wifi testing, and wifi solution design. See our work at: <http://www.paddle8.com>
Contact: Kate Duggan: (949) 813 4244

HVAC Design/Information Technology: 2000 - Present-

I have worked at Climate Changers ever since graduating high school in various capacities. Field work has taught me the value of hard work and pride in all undertakings. The business end of things has taught me the importance of cultivating lasting relationships and building trust. Keeping the technology end of things running in the company has helped the business stay competitive and efficient.
Contact: Perry Barlow at Climate Changers: (661)252 6922

Information Technology: 2009-2011-

I worked at IO Artisans as a contracted employee that would assist clients with setting up their wireless networks and getting them up to speed on how to use their computers. Most clients were small business owners looking for simple networking solutions.
Contact: Kevin Rigger: (661) 600 6830

EMT/Paramedic: 2007 - 2013-

I worked in EMS for over five years, and through that experience I learned about leadership, compassion, and the true value of helping others. I've worked with Medresponse Ambulance in Van Nuys, City and County of Honolulu in Hawaii, and most recently American Medical Response in Ventura County. I'm taking a break from this profession to see what else is out there for me.
Contact: Ray Perez at Medresponse:(888) 633 3333
Contact: Christopher Pate at Honolulu Fire Department: (808) 291 6192
Contact: Chad Panke at AMR Ventura: (805) 331 3859

Education:

University of Hawaii - 2006 - 2009 - AS- Emergency Medicine

Al Art Institute of San Francisco - 2005 - 2006

Current Salary Requirements:

\$60,000 a year

or \$25.00 per hour
